

Safety data sheet

according to 1907/2006/EC, Article 31

Printing date 23.04.2018 Version number 3 Revision: 23.04.2018

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Düsofix anti-spatter paste - Trade name:

- 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified use: intended for professional use only!

- Application of the substance / the mixture Processing aid

- 1.3 Details of the supplier of the safety data sheet

- Manufacturer/Supplier: Alexander BINZEL

Schweißtechnik GmbH & Co.KG Postfach 10 01 53 / D-35331 Giessen

Tel.: +49 (0) 6408 / 59-0 Fax: +49 (0) 6408 / 59-191

Mail: technischedokumentation@binzel-abicor.com

- Further information obtainable from: **Technical Documentation**

- 1.4 Emergency telephone number: Giftinformationszentrum der Länder Rheinland-Pfalz und Hessen

Langenbeckstraße 1; Gebäude 601; 55131 Mainz

Tel. Nr.: +49 (0)6131 / 19 24 0

Universitätsmedizin der Johannes Gutenberg-Universität Mainz

SECTION 2: Hazards identification

- 2.1 Classification of the substance or mixture

Classification according to Regulation (EC)

No 1272/2008 The product is not classified, according to the CLP regulation.

2.2 Label elements

- Labelling according to Regulation (EC) No

Void 1272/2008 - Hazard pictograms Void - Signal word Void - Hazard statements Void

- 2.3 Other hazards

- Results of PBT and vPvB assessment

Not applicable. - PRT-- vPvB: Not applicable.

SECTION 3: Composition/information on ingredients

- 3.2 Chemical characterisation: Mixtures

- Description: Mixture: consisting of the following components.

- Dangerous components: Void

- Additional information: For the wording of the listed hazard phrases refer to section 16.

SECTION 4: First aid measures

- 4.1 Description of first aid measures

- General information: Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48

hours after the accident.

Do not leave affected persons unattended. Personal protection for the First Aider.

Take affected persons out of danger area and lay down.

In case of unconsciousness place patient stably in side position for transportation.

Supply fresh air; consult doctor in case of complaints.

Immediately wash with water and soap and rinse thoroughly.

Seek medical treatment in case of complaints.

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

Protect unharmed eve. - After swallowing:

If symptoms persist consult doctor.

- 4.2 Most important symptoms and effects,

both acute and delayed

No further relevant information available.

- 4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

SECTION 5: Firefighting measures

- 5.1 Extinguishing media

- After inhalation:

After skin contact:

- After eye contact:

- Suitable extinguishing agents: CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

Use fire extinguishing methods suitable to surrounding conditions. - 5.2 Special hazards arising from the

substance or mixture Formation of toxic gases is possible during heating or in case of fire.

(Contd. on page 2)

(Contd. of page 1)

Safety data sheet

according to 1907/2006/EC, Article 31

Printing date 23.04.2018 Version number 3 Revision: 23.04.2018

Trade name: Düsofix anti-spatter paste

- 5.3 Advice for firefighters
 - Protective equipment:
 Do not inhale explosion gases or combustion gases.

Additional information
 Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

SECTION 6: Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

Ensure adequate ventilation

- 6.2 Environmental precautions:

- 6.4 Reference to other sections

Prevent from spreading (e.g. by damming-in or oil barriers).

Do not allow to enter sewers/ surface or ground water.

Inform respective authorities in case of seepage into water course or sewage system.

- 6.3 Methods and material for containment

and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

Dispose contaminated material as waste according to item 13.

Do not flush with water or aqueous cleansing agents

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

SECTION 7: Handling and storage

- 7.1 Precautions for safe handling

Store in cool, dry place in tightly closed receptacles. Ensure good ventilation/exhaustion at the workplace.

Prevent formation of aerosols.

Information about fire - and explosion protection:

protection.

No special measures required.

- 7.2 Conditions for safe storage, including any incompatibilities

Storage:

Requirements to be met by storerooms and receptacles:

- Information about storage in one common

5

Store only in the original receptacle.

storage facility:
- Further information about storage

conditions:

Store away from foodstuffs.

Protect from frost. Store in dry conditions. Keep container tightly sealed.

Recommended storage temperature: 5-30 °C

- Storage class: 10

- 7.3 Specific end use(s)

No further relevant information available.

SECTION 8: Exposure controls/personal protection

- Additional information about design of

technical facilities:

No further data; see item 7.

- 8.1 Control parameters

- Ingredients with limit values that require monitoring at the workplace:

- Additional information: The lists valid during the making were used as basis.

8.2 Exposure controls

- Personal protective equipment:

- General protective and hygienic measures: The usual precautionary measures are to be adhered to when handling chemicals.

Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work.

Avoid contact with the eyes and skin.

- Respiratory protection: When used properly and under normal conditions, breathing protection is not required.

Use suitable respiratory protective device in case of insufficient ventilation.

Filter A/P2

Respiratory protection - Gas filters and combination filters according to EN 141

- Protection of hands:

Protective gloves

Check protective gloves prior to each use for their proper condition.

Only use chemical-protective gloves with CE-labelling of category III.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

After use of gloves apply skin-cleaning agents and skin cosmetics.

(Contd. on page 3)

(Contd. of page 2)

Safety data sheet

according to 1907/2006/EC, Article 31

Printing date 23.04.2018 Version number 3 Revision: 23.04.2018

Trade name: Düsofix anti-spatter paste

- Material of gloves Recommended materials:

Butyl rubber, BR

Recommended thickness of the material: ≥ 0.5 mm

The selection of the suitable gloves does not only depend on the material, but also on further marks of

quality and varies from manufacturer to manufacturer.

The determined penetration times according to EN 374 part III are not performed under practical - Penetration time of glove material

conditions. Therefore a maximum wearing time, which corresponds to 50% of the penetration time, is

recommended.

As protection from splashes gloves made of

the following materials are suitable:

Nitrile rubber, NBR

Recommended thickness of the material: ≥ 0.1 mm

Penetration time (min.): <10

- Eye protection:

Tightly sealed goggles

Protective goggles and facial protection - Classification according to EN 166

- Body protection: Protective work clothing

Impervious protective clothing

SECTION 9: Physical and chemical properties

- 9.1 Information on basic physical and chemical properties

General Information

 Appearance: Form:

Pasty Colour: Yellow

- Odour: Nearly odourless - Odour threshold: Not determined. pH-value: Not determined.

Change in condition

Melting point/freezing point: Undetermined. Initial boiling point and boiling range: 516 °C

> 150 °C - Flash point: - Flammability (solid, gas): Not applicable.

- Decomposition temperature: Not determined.

- Auto-ignition temperature: Product is not selfigniting. - Explosive properties:

Product does not present an explosion hazard

Explosion limits:

Lower: Not determined Upper: Not determined. Density at 20 °C: 0.82 g/cm3 Relative density Not determined. Vapour density Not determined. - Evaporation rate Not determined.

- Solubility in / Miscibility with

Not miscible or difficult to mix.

 Partition coefficient: n-octanol/water: Not determined.

- Viscosity:

Dynamic: Not determined. Kinematic: Not determined

- 9.2 Other information No further relevant information available.

SECTION 10: Stability and reactivity

- 10.1 Reactivity

No further relevant information available.

- 10.2 Chemical stability

- Thermal decomposition / conditions to be avoided:

No decomposition if used according to specifications.

- 10.3 Possibility of hazardous reactions

No dangerous reactions known.

- 10.4 Conditions to avoid - 10.5 Incompatible materials: No further relevant information available.

No further relevant information available.

(Contd. on page 4)

Safety data sheet

according to 1907/2006/EC, Article 31

Printing date 23.04.2018 Version number 3 Revision: 23.04.2018

Trade name: Düsofix anti-spatter paste

- 10.6 Hazardous decomposition products: No dangerous decomposition products known. (Contd. of page 3)

SECTION 11: Toxicological information

- 11.1 Information on toxicological effects

- Acute toxicity Based on available data, the classification criteria are not met.

- LD/LC50 values relevant for classification:

LD50 >5,000 mg/kg (rat) Dermal LD50 >2,000 mg/kg (rabbit)

Primary irritant effect:

 Skin corrosion/irritation Based on available data, the classification criteria are not met. Serious eye damage/irritation Based on available data, the classification criteria are not met. Respiratory or skin sensitisation Based on available data, the classification criteria are not met.

- CMR effects (carcinogenity, mutagenicity and toxicity for reproduction) Germ cell mutagenicity Based on available data, the classification criteria are not met. - Carcinogenicity Based on available data, the classification criteria are not met. - Reproductive toxicity Based on available data, the classification criteria are not met. - STOT-single exposure Based on available data, the classification criteria are not met. STOT-repeated exposure Based on available data, the classification criteria are not met. - Aspiration hazard Based on available data, the classification criteria are not met.

SECTION 12: Ecological information

12.1 Toxicity

Aquatic toxicity:

LC50/96 h >100 mg/l (Pimephales promelas) >10,000 mg/l (Daphnia magna)

12.2 Persistence and degradability No further relevant information available. - 12.3 Bioaccumulative potential No further relevant information available. 12.4 Mobility in soil No further relevant information available.

Additional ecological information:

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water General notes:

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage

- 12.5 Results of PBT and vPvB assessment

- PBT:

- vPvB:

12.6 Other adverse effects

Not applicable. Not applicable.

No further relevant information available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

 Recommendation Smaller quantities can be disposed of with household waste.

Disposal according to official regulations

European waste catalogue

15 01 04 metallic packaging

12 01 12 spent waxes and fats

Uncleaned packaging:

- Recommendation: Disposal must be made according to official regulations.

SECTION 14: Transport information

- 14.1 UN-Number

 ADR, ADN, IMDG, IATA Void

- 14.2 UN proper shipping name

- ADR, ADN, IMDG, IATA Void

- 14.3 Transport hazard class(es)

- ADR, ADN, IMDG, IATA

 Class Void

- 14.4 Packing group

- ADR, IMDG, IATA Void

(Contd. on page 5)

Safety data sheet

according to 1907/2006/EC, Article 31

Printing date 23.04.2018 Revision: 23.04.2018 Version number 3

Trade name: Düsofix anti-spatter paste

(Contd. of page 4) - 14.5 Environmental hazards: - Marine pollutant: - 14.6 Special precautions for user Not applicable. - 14.7 Transport in bulk according to Annex II of Marpol and the IBC Code Not applicable. - UN "Model Regulation": Void

SECTION 15: Regulatory information

- 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

- Directive 2012/18/EU

- Named dangerous substances - ANNEX I None of the ingredients is listed.

- 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

- Department issuing SDS: **Technical Documentation** - Contact: **Technical Documentation**

ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Abbreviations and acronyms:

Carriage of Dangerous Goods by Road) IMDG: International Maritime Code for Dangerous Goods

IATA: International Air Transport Association

IATA: International Air Transport Association
GHS: Globally Harmonised System of Classification and Labelling of Chemicals
EINECS: European Inventory of Existing Commercial Chemical Substances
ELINCS: European List of Notified Chemical Substances
CAS: Chemical Abstracts Service (division of the American Chemical Society)

LC50: Lethal concentration, 50 percent LD50: Lethal dose, 50 percent PBT: Persistent, Bioaccumulative and Toxic

vPvB: very Persistent and very Bioaccumulative
